Product Information SHEET 1 / 2

Composition (%w/w)

Iron	6%
Manganese	3%
Zinc	5%

Compatibility

Compatible with other fertilizers. The pH of the tank solution should be above 4.

Packaging

MICRONUTRIENTS

Oligo Vesuvius Mix

Van Iperen Oligo Vesuvius Mix is a highly pure and uniform blend of EDTA chelated Micronutrients fertilizer, which dissolves rapidly and completely. Our product is dust free and is recommended at different phenological stages. The high level of Micronutrients in our formula improves plant vitality and production.

- Overcomes general Micronutrient defiencies
- Micronutrients 100% chelated and fully available up to a pH of 9 (Iron up to a pH of 6)
 - 🥦 Easy to handle and apply
 - >>> Developed for foliar application. Also suitable for fertigation in open field and greenhouses
 - Soft for leaf tissue

Product Characteristics

- Rapidly dissolvable at high concentration
- Low in Chloride
- Raspberry shaped microgranules
- Homogeneous due to uniform microgranules
- Patented micro granulation process

Did you know?

Van Iperen offers a wide range of soluble and liquid EDTA chelated Micronutrients! Our EDTA range includes single Micronutrients and mixes (blends and compounds). Together with IDHA, DTPA, EDDHA and HBED chelated Micronutrients we provide solutions for foliar application and fertigation in open field and greenhouses.
