### Packaging

Van Iperen FoliaStim® Harmony Liquid is a pure and highly concentrated liquid NPK fertilizer, formulated with 15% seaweed. Our product is a stable solution and is recommended at different phenological stages. The high level of Nitrogen, Phosphate and Potassium in our formula improves cell division, cell elongation and cell pressure. The presence of high quality seaweed supports the uptake and the transportation of nutrients and increases resistance against abiotic stress. Produced in our own plant Euroliquids.

- Improves root and shoot growth, vegetative growth, gives high quality buds and fruits and increases drought and heat resistance
- Easy to handle and apply
- Developed for foliar application
- Soft for leaf tissue

### Product Characteristics
