

# Safety Data Sheet

following European Regulation (CE) REACH N°1907/2006 and Regulation (CE) N°453/2010

## Oligo Premium Iron-EDDHA 6% (4.8% o-o)

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Identification of the product

Commercial name of the product: **Van Iperen Oligo Premium Iron-EDDHA 6% (4.8% o-o)**

Chemical Name of the substance:

Acetic acid, oxo-, sodium salt, reaction products with ethylenediamine and phenol, Iron sodium salts.

EC N°: 283-044-5

CAS N° : 84539-55-9

REACH Registration N° : 01-2119487279-21-0002

#### 1.2. Identified uses of the substance or mixture and unadvisable uses

As fertiliser in agriculture.

#### 1.3. Details of the supplier of the safety data sheet

Van Iperen International BV

Smidsweg 24

3273 LK Westmaas - Nederland

T +31 (0) 186 578 888 - F +31 (0) 186 573 452

[info@iperen.com](mailto:info@iperen.com) - [www.vaniperen.com](http://www.vaniperen.com)

#### 1.4. Emergency telephone number

Country	Official advisory body	Address	Emergency number
Ireland (Republic of)	National Poisons Information Centre Beaumont Hospital	Beaumont Hospital Beaumont Road 9 Dublin	: +353 1 8379964
United Kingdom	Guy's & St Thomas' Poisons Unit Medical Toxicology Unit, Guy's & St Thomas' Hospital Trust	Avonley Road SE14 5ER London	0870 243 2241

### SECTION 2: Danger Identification

#### 2.1. Classification of the substance or mixture

Classification:

The product is not dangerous according to the Regulation (EC) No. 1272/2008.

Effects to the environment: Not dangerous.

#### 2.2. Label elements

Danger pictogram: Not applicable

Advising wording: Not applicable

Danger indication: Not applicable

Caution advise: P102 + P270

#### 2.3. Other dangers:

No data available.

### SECTION 3: Composition / information about the components

#### 3.1 Substance / Preparation :

UVCB Substance

#### 3.2 Chemical name:

Acetic acid, oxo-, sodium salt, reaction products with ethylenediamine and phenol, Iron sodium salts.

3.3 CAS N°: 84539-55-9

3.4 EC N°: 283-044-5

3.5 CLP Classification:-

### SECTION 4: First Aid

#### 4.1. First aid description:

In case of inhalation:

Take the person away from the contaminated zone, carrying him / her to an aired zone. Get medical attention.

In case of skin contact:

Wash immediately with soap and rinse with plenty of water.

In case of eyes contact:

Wash immediately with plenty of water, also below eyelids, during at least 15 minutes. Get medical assistance immediately.

In case of ingestion:

Wash the mouth immediately with water and drink a lot.

# Safety Data Sheet

following European Regulation (CE) REACH N°1907/2006 and Regulation (CE) N°453/2010

## ***Oligo Premium Iron-EDDHA 6% (4.8% o-o)***

### **4.2. Main symptoms and effects, acute and later.**

Inhalation: Adverse effects are not foreseen.  
Skin contact: Adverse effects are not foreseen.  
Eyes contact: Adverse effects are not foreseen.  
Ingestion: Adverse effects are not foreseen.

### **4.3. Indication of any medical attention and special treatments to be applied immediately**

If any symptom is persisting, ask the doctor.

## **SECTION 5: Measures of fight against fire**

### **5.1. Extinction means**

Right extinction means: Use suitable extinction means as: water, dry powder, carbon dioxide, foam.  
Extinction means to avoid: None

### **5.2. Specific danger derived from the substance or mixture**

The product doesn't let off toxic gases and is not flammable.

### **5.3. Protection gear for the staff of fight against fire:**

It doesn't need special equipment.

## **SECTION 6: Measures to take in case of accidental dumping**

### **6.1. Individual precautions, protection equipment and emergency procedures**

Avoid contact with eye and skin. Avoid dust breathe.  
Use individual protection equipment. Ensure an adequate ventilation.  
See also Section 8.

### **6.2. Environment precautions**

Avoid that the product reach the surface water or the sewer net.

### **6.3. Clean and holding material and methods**

Collect the product by mechanical means and store in appropriate containers for its elimination. Label the containers and proceed regarding the local authorities rules. Clean the rest with some water. Avoid the contamination of the natural water sources.

### **6.4. Reference to other sections**

Consult Section 8 relative to suitable protection equipment. Consult Section 13 relative to the treatment of residues.

## **SECTION 7: Handling and storage**

### **7.1. Precautions for a safety use**

See also Section 8.  
General advise: Apply the current GP (Good Practices) concerning industrial hygiene and safety. Avoid contact with eyes, skin and clothes. Avoid dust formation. Keep the product in its original packing.

### **7.2. Safety storage conditions, including possible incompatibilities.**

Store far from the materials listed in Section 10. Keep the packing closed in a dry, fresh and well ventilated place. Keep away of non-authorized persons. Keep away of food, drinks and animal feed.

### **7.3. Final specific use**

Agriculture: Fertiliser.

## **SECTION 8: Exposure control / Personal protection**

### **8.1. Control parameters**

DNELs:

DNEL for workers:

0,8 mg/kg of body weight / day (skin exposition)

1,8 mg/m<sup>3</sup> (inhalation)

DNEL for population in general:

0,417 mg/kg of body weight / day (skin exposition)

0,435 mg/m<sup>3</sup> (inhalation)

0,125 mg/kg of body weight / day (oral exposition)

Predicted non effect concentration (PNEC):

# Safety Data Sheet

following European Regulation (CE) REACH N°1907/2006 and Regulation (CE) N°453/2010

## ***Oligo Premium Iron-EDDHA 6% (4.8% o-o)***

PNEC water (water):	2,40	mg/L
PNEC water (sea water):	0,24	mg/L
PNEC water (intermittent emissions):	1,20	mg/L
PNEC sediment (water):	1,90	mg/kg
PNEC sediment (sea water):	0,19	mg/kg
PNEC soil:	1,60	mg/kg
PNEC residual water treatment plant:	45,00	mg/L.
PNEC oral:	1,1	mg/kg of food

### **8.2. Exposure controls**

#### **8.2.1. Suitable technical controls**

See also Section 7. Ensure of an adequate ventilation. Use only in area with adequate extraction and ventilation.

#### **8.2.2. Individual protection measures**

Respiratory protection: In case on insufficient ventilation, use adequate respiratory (breathing) equipment. Respirator with filter type A.

Hands protection: Protective gloves fulfilling norm EN 374. Rubber gloves.

Eyes protection: Protectives glasses with lateral closing as described in norm EN 166.

Body and skin protection: While handling the product, use adequate protection clothes.

Hygiene measures: Handle the product according to the GP of industrial hygiene and safety. Clean hands before to stop and immediately after to handle the product. Do not eat, drink or smoke when handling the product.

#### **8.2.3. Environmental Exposure Controls**

Avoid the product to reach the surface water or the sewer network.

## **SECTION 9: Physical and chemical properties**

Aspect	microgranulated powder, free of refined
Colour	black – reddish
Odour	little intense, characteristic
pH (1%)	7.5 - 9.5
Melting point :	It decomposes without melting, at a temperature higher than 200 ° C
Boiling point:	It decomposes before melting.
Inflammation point:	n.a.
Self ignition temperature:	331°C a 1013.25 hPa
Inflammability	It is not inflammable.
Explosive properties:	It is not explosive
Oxidizing properties:	It is not oxidant
Vapour pressure:	< 1E-6hPa a 25°C
Viscosity:	n.a.
Apparent density	450 – 650 Kg/m <sup>3</sup>
Solubility in water	Theoretical 120 g/l; Practical (CoA) 60 g/l
n-octanol/water partition coefficient (log Pow):	< -4,2 a 23°C

## **SECTION 10: Stability and reactivity**

### **10.1. Reactivity**

No data available.

### **10.2. Chemical stability**

The product is fully stable at usual environmental conditions and at usual temperature and pressure conditions foreseen when store or manipulate.

### **10.3. Dangerous reactions possibility**

None under usual conditions of use.

### **10.4. Conditions to avoid:**

Keep away from flame, hot surfaces and ignition sources.

### **10.5. Incompatibility materials**

Avoid oxidizing agents

### **10.6. Dangerous products of decomposition**

By pyrolysis toxic fumes as carbon oxides (CO, CO<sub>2</sub>) and nitrogen oxides (NO<sub>x</sub>) can be produced.

# Safety Data Sheet

following European Regulation (CE) REACH N°1907/2006 and Regulation (CE) N°453/2010

## ***Oligo Premium Iron-EDDHA 6% (4.8% o-o)***

### **SECTION 11: Toxicological Information**

#### **11.1. Toxicological effects information**

Acute Toxicity: The product do not show any acute toxic effect:

DL50 (oral, rat): > 2000 mg/kg of body weight (according to OECD 401 Guideline) CL50 (inhalation, rat): > 4200 mg/m<sup>3</sup> air (according to OECD 403 Guideline) DL50 (dermal, rat): > 2000 mg/kg of body weight (según Guía OECD 402 Guideline)

Skin corrosion/irritation:

Not irritant (tested on rabbit according to OECD 404 Guideline).

Severe ocular lesions / irritation:

Not irritant (tested on rabbit according OECD 405 Guideline).

Skin sensitization:

No sensitizer (Local Lymph Node Assay (LLNA) tested on rat according to OECD 429 Guideline).

Chronic Toxicity:

Nor carcinogenic, nor mutagenic, nor teratogenic effect has been detected in animal tests.

### **SECTION 12: Ecological information**

#### **12.1. Toxicity**

Aquatic Toxicity:

- The product is not toxic for fish (tested according OECD 203 Guideline and the method EU C.1):

CL50 > 120 mg/L NOEC ≥ 120 mg/L

- The product is not toxic for aquatic invertebrates (tested according to OECD 202 Guideline and the method EU C.2):

CL50 > 120 mg/L

- The product is not toxic for aquatic algae (tested according OECD 201 Guideline and the method EU C.3):

CL50 > 294 mg/L NOEC 8.2 mg/L

- The product is not toxic for aquatic microorganisms (tested according OECD 209 Guideline and the method EU C.11):

CL50 > 1000 mg/L NOEC 450 mg/L

Toxicity on sediments: No data available.

Terrestrial Toxicity: - The product is not toxic for birds:

CL50 > 6000 mg/kg de peso corporal

#### **12.2. Persistency and degradability**

The product is biodegradable

#### **12.3. Bioaccumulation potential**

The product is not bioaccumulable (Log Pow < -4,2).

#### **12.4. Mobility on soil**

No data available.

#### **12.5. PBT y vPvB results evaluation**

The product is not persistent, nor bioaccumulable, nor toxic (PBT).

#### **12.6. Other adverse effects**

No data available.

### **SECTION 13: Considerations related to elimination**

Destroy the product according to the local regulations.

### **SECTION 14: Transport information**

Road and Railway - RID/ADR

Not classified

Sea freight – IMDG Code

Not classified

Aerial Transport - ICAO/IATA

Not classified

### **SECTION 15: Regulatory information**

#### **15.1. Regulation and legislation in the field of safety, health and environment, specific for the substance or mixture**

Classification: The product is not dangerous according to European Regulation (EC) No. 1272/2008.

# Safety Data Sheet

following European Regulation (CE) REACH N°1907/2006 and Regulation (CE) N°453/2010

## ***Oligo Premium Iron-EDDHA 6% (4.8% o-o)***

### Regulations:

Directive 91/689/CEE concerning hazardous waste.

- Regulation (EC) No. 1907/2006, concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

- Regulation (EC) No. 1272/2008, on classification, labelling and packaging of substances and mixtures.

- Regulation (EU) No. 830/2015, amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

### **15.2. Safety chemical evaluation**

The safety chemical evaluation for this product has been performed.

## **16. SECTION 16: Other information**

Revision of the this document:

MSDS Revision: 3

Last revision date: 13 June 2018

### Abbreviations and acronyms:

DNEL: Derived No Effect Level

PNEC: (Predicted No Effect Concentration)

CL50: Average Letal Concentration

DL50: Average Letal Dose

NOEC: Non Observed Effect Concentration
