Plants for Plants Life Project | This project is co-funded by the European Union's LIFE Programme under Grant Agreement LIFE18 ENV/NL/000043.

Project partner in Plants for Plants®.

- CROP: Sunflower
- DATE: 2020
- LOCATION: Montech, France
- EXECUTED BY: Van Iperen International / Arterris
- APPLICATION: Foliar
- DEMONSTRATION TRIAL: B5

TRIAL SET-UP

Control	Treated with P4P 4-Vita
Untreated	20.06.2020: 1st application (6L/Ha each)
Untreated	08.07.2020: 2nd application (9L/Ha each)
Untreated	28.07.2020: 3rd application (3L/Ha each)

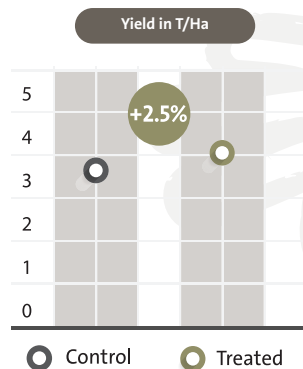

CONCLUSION

No significant difference was noted between treated and control - Good to know that the year was an exceptional one in terms of yield, as we are in record yield situation.

RESULTS

SLIGHT INCREASE IN YIELD | +2.5%

Yield in T/Ha	
Control	3.9
Treated	4.0
